PS3$_Z$hang

Haotian Zhang

February 2025

1.The size of the extracted insurance CSV file was 4,123,652 bytes (approximately 4.12 MB).

2.The number of lines in the CSV file before the end-of-line (EOL) conversion was 1 (suggesting it may have been using a different line-break format).

3.The number of lines in the CSV file after the EOL conversion was 36,635.
